

# CalcChat

An unofficial version of the CalcChat textbook review website, for Android

## Product Features

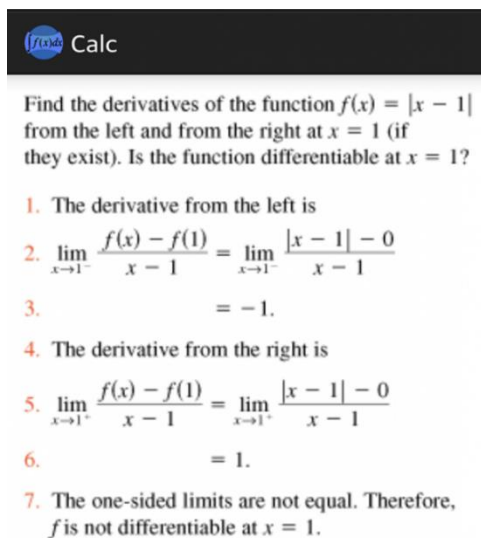

- Quickly and efficiently displays answers for problems
- Swipe left and right for the next and previous problem, or use the input dials
- Remembers your spot between sessions
- Currently supports Larson Calculus of a Single Variable, 7E

## Product Description

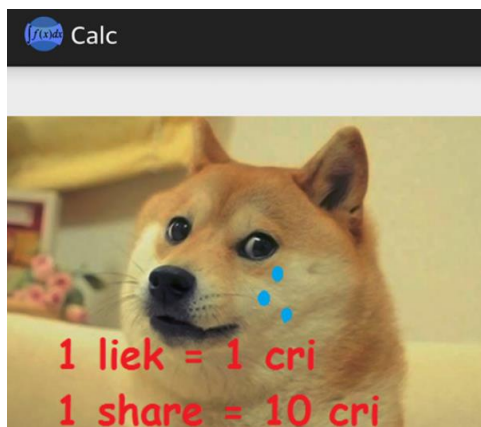

Have you ever gotten tired of plugging in problem number after problem number on your calc homework? Never fear, now you can copy answers for the Stewart Calculus textbook more efficiently than ever. Thanks go out to Ron Larson and [calcchat.com](http://calcchat.com), which provides all the solutions.

Section 2.1 Problem #81

Section 2.1 Problem #95

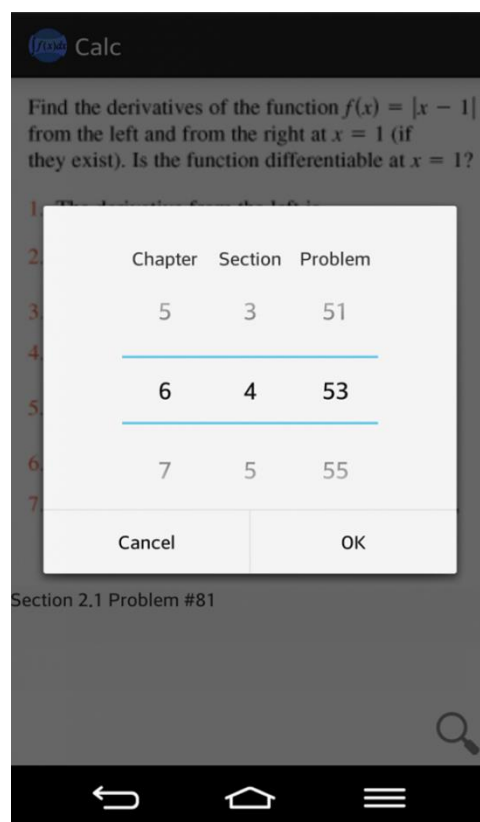

You have reached the last question of the section

This application will simply connect to the calcchat website and pull the image file that shows how to do the specific problem you are working on.

You can swipe left or right to go to the previous or next problem.

The little search glass lets you skip through to another set of problems in another section of the book.

We had a sense of humor with this app, and we had no limits when it came to unprofessionalism.

The doge meme would show whenever there was an error.
